**WATERPROOF SHELL FABRIC: 3000mm**

Water-resistant fabrics offer safe protection against water on the textile surface. The seams are not taped.

**REPREVE® ULTRALIGHT FILLING**

100% of the filling is made of recycled plastic bottles.

GL2655-2044-22\_MARINA BLUE | 2-LAYER FABRIC | 100% LAND

GL2655-2042-11\_BLUE\_WHALE | 3-LAYER FABRIC (MEMBRAN) | 70% LAND 30% OCEAN

**WINDPROOF**

Wind-resistant garments prevent the body temperature from dropping down during windy conditions. This is achieved by special coatings and/or functional elements.

**BREATHABLE: 1500 glm/m<sup>2</sup>/24h**

Breathable textiles are able to absorb body moisture and pass it onto the outer fabric layer. They are water vapor permeable. This supports the body's requirements for warmth regulation.

**WATER PROOF: 1500 mm**

Water-resistant fabrics offer safe protection against water during all outdoor activities. Its seams are sealed on the inside to prevent moisture from penetrating. Watertight zippers add additional protection.

**TAPED SEAMS**

Taped or sealed seams offer optimal moisture protection

**REPREEVE®-OCEAN FLEECE PADDING**

30% of the recycled filler are made of ocean-bound plastic bottles.
